12.36	Phosphoenix	Pieter Roelfsema	KNAW	MedTech & Diagnostics
12.51	Closing remarks			
12.55	End of program			

Pitches will last for a maximum of 10 min presentation, followed by 4 min Q&A (+1 min change).

Elevator pitches* contain of a 5 min presentation plus 2 min Q&A (+1 min change).

Due to the density of the programme we must strictly adhere to the schedule. To compensate the loss of networking opportunities, quickfire sessions are scheduled for each pitch-presentation during one of the following days, see schedule on page 2.

Overviews of the **quickfire sessions** can be found on page 2. These sessions will be scheduled, based on the availability of investors/entrepreneurs; the sessions will last 30 - 45 minutes.

Please mark your interest for QF-sessions at the registration-form **November 1 the latest**, for planning purposes. Registrations after November 1 are scheduled based on availability. We will tailor the audience as much as possible to the business area of the initiative at hand.

Seats will be assigned and communicated in week 45 (November 2-6).

Summaries of all Spin off initiatives will be made available upon registration.

Date	Time	Spin off initiative
Quick fire sessions only		
Monday 9 November	09.00 – 09.45	Immuno-oncology spin-off company <i>Targeted anti-cancer therapy via engineered antigen presenting polymers</i>
