

# Trince – advancing cell-based therapies by efficient and gentle delivery of payloads in cells

2015

UGent researchers received the ERC Consolidator grant

Healthy Ideas<sup>HIHR</sup>  
Healthy Returns

In 2019 Trince joined the HIHR pitch event, supporting their journey towards raising their first equity round

Trince was founded in Sept 2021 by Prof. Kevin Braeckmans, Prof. Stefaan De Smedt and entrepreneur Philip Mathuis

They raised €4M seed capital with Novalis and Qbic fund in 2021

Now they are growing their team and expertise to accelerate their growth

2023

*"At HIHR 2019 we had the opportunity as an academic team to pitch our spin-off project to a group of investors. After teaming up with an experienced entrepreneur and thorough due diligence, we successfully secured funding from some of those investors."*
